One early coinage specialist that we spoke with believes that the market continues to display a reasonable amount of demand, even at the higher levels. Early Type, he believes, is especially strong right now. Early Half Dimes from 1794 thru 1800 and Bust Dollars are strong sellers for him if he is able to get the coins. It is difficult to find rarities, let alone to buy in this bull market atmosphere. He sells quite a bit to other dealers but also to a small percentage of high-powered collector/investors. These buyers prefer certified rare coins, he says, because it provides them protection against counterfeit or altered material along with a professional independent evaluation of the grade. Many of these people are professionals that have returned to collecting after a long hiatus. These buyers are from the "baby boomer" generation and they are willing to spend $5,000, $10,000 or even $20,000 per coin. They appreciate these rarities and enjoy the low maintenance as they are easily stored in a safe at home or at the bank. It is also part of their plan to better diversify their portfolios. Select rare coin track records for the last few years are also rather impressive as well. These buyers have made a shift from conspicuous consumption, such as flashy automobiles, towards making an emphasis on spending money on tangible assets, such as rare coins.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services determined through careful study of market [illegible] nationally reported sight unseen Bids, Asks, Trades (prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid but will be strongly influenced by the [illegible] Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices [illegible] of the dealers and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels. [illegible]

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit on a sight basis.

WALKING LIBERTY HALVES

If your coin will stand on its own merits regardless of the certified grade, a higher *CDN* Bid may be more indicative of current market value.

Discover NGC's Unparalleled Approach to Service.

NGC offers the numismatic community a truly rare commitment. Our best-in-class services, industry-leading experts and a customer-focused approach give dealers and collectors alike a comprehensive grading services partner.

The Finest Services

NGC's comprehensive offering means that you have access to the numismatic services you need to make the most of your collection. From our expert grading and industry-leading holder to our comprehensive registry, our services are designed to help fulfill your passion for the hobby. Plus, we offer unparalleled conservation services through our exclusive partnership with Numismatic Conservation Services (NCS).

The Leading Experts

The diverse numismatic backgrounds and unchallenged experience of our graders combine with our uncompromising standards of integrity and objectivity to make NGC the most respected grading service in the industry. NGC graders are prohibited from buying or selling coins, therefore guaranteeing impartiality. This is one of the main reasons we are the only grading service ever endorsed by the ANA, America's only official coin collecting organization chartered by Congress.

The Right Approach

NGC is the only grading service that provides dealers and collectors with a seamless source for having coins conserved if necessary, graded and registered. We also offer the industry's strongest guarantee, giving our customers complete confidence in the grade and authenticity of their NGC graded coins.

GSA Dollars Move Higher Increases Target ANACS Certified Coins

The need for material by dealers continues to intensify week by week. Evidence of this intensity and determination to buy coins is easily seen within the **sight-unseen** marketplace. Dealers desperately need coins for their clients and are doing whatever it takes to acquire some. Several have been regularly increasing their sight-unseen Bids for PCGS and NGC material. They actually care less about what the coins look like and more about what the label says. Also, we continue to hear that far fewer "dogs" are on the market than in years past, lessening the risk of purchasing sight-unseen. As dealer inventories stay at critically low levels, customer want lists will only continue to grow. Consequently, dealers are increasing their sight-unseen Bids for a number of select ANACS certified coins. Some believe that many of these Bids are surprisingly too low compared with the other professional grading services. To a few dealers this situation just clearly spells value. At least one dealer sees an opportunity to buy some coins at bargain levels even after posting higher Bids. Those dealers that can recognize areas of the market that may provide an advantage and act on that opportunity stand to benefit the most. In this hot market it's all about maximizing one's effort to buy rare coins at attractive levels. Mint State Type is one area where dealers have been especially busy raising Bids. Type is one of the hottest areas of the market and the Bid levels for ANACS Type seem too attractive to ignore. Plus signs are also seen for Morgan Dollars, Walkers and Silver Commemoratives. Sight-Unseen Bids for Gold Commemoratives graded by NGC and PCGS are very strong this week as compared to the past several. Increases are most numerous for specimens grading MS63 thru MS65. Most of these coins are priced in four-figure range and this indicates the strength and power of the current demand. Another example of this power is found within the Morgan Dollar series. Notice the plus signs along side the key and semi-key dates. Also notice the high dollar amount that these Bids are chasing. Four major rarities are up this week including: 1889-CC, 1892-S, 1893-S and 1896-O. Dealers have customers anxiously waiting for these coins and so they must increase their Bids. GSA Dollars are especially hot. Dealers are looking to buy both "CC" GSA Dollars and NGC certified "CC" GSA Dollars. They will take quantities if they can get them but an offer of just one example is also acceptable. We see that the 1890-CC and 1891-CC made big moves with this report. Also the 1879-CC is realizing heavy demand. Despite volatility in Gold Spot, up one day and down the next, strong demand still exists for certified Gold Type. Dealers are feeling the pressure when attempting to satisfy their customers. The problem is that many buyers are looking for quantities of one particular denomination or another. Dealers check with their usual sources and are often dismayed because they aren't able to buy the number of coins that they need. The scarcity of Gold at these levels is somewhat troublesome but dealers remain hopeful. This market doesn't seem to be slowing down and dealers tell us that the volume and activity levels are continually strong.

Last month we stated that we see far fewer PCGS and NGC coins being sold at auction for levels that are below sight-unseen Bid. This is **not** the case for select ICG graded coins. Several examples are regularly selling at auction for **far below** the posted sight-unseen Bid. See the chart at left for a portion of such examples from the past 37 days. It just amazes us at how much money is being left on the table. These 30 coins could have realized $9,157 more if they were simply sold to the high sight-unseen buyer. They sold for an average of 29% below Bid. It does not get much easier than selling coins sight-unseen on the electronic dealer-to-dealer trading networks. You deal with fellow dealers and all sales are final — no returns whatsoever, regardless of quality.

ICG is Proud to Present

The "King of VAMs"

1878 7/8TF $1
DISCOVERY COIN
1878

The VAM 44 Discovery Coin!

In 1963, a young Berkeley engineering student encountered a revolutionary booklet, entitled *Morgan Dollar Varieties* by F.X. Klaes. In this small volume, a previously unknown 7/8TF "Doubled Leaves" variety was among the coins featured. And the rest is history!

The student was none other than Leroy Van Allen.
And the coin? It was the first VAM 44, the "King of VAMs."

And naturally, IT'S IN AN ICG HOLDER!

Rare Coin Sales Increasing Dramatically
Milwaukee Coin Auctions Combine for $16 Million

It is easy to see why dealers are so encouraged about the current state of the rare coin market. There are so many good things happening in the coin business that dealers remain highly optimistic about its future. Dealers that we talk with on a regular basis say that their overall retail sales for the past few months have sharply increased. Some have said that their sales have even **doubled**. And in some cases this doubling has been realized in consecutive months of business. It's no wonder that many dealers have a reason to smile despite the long hours spent reviewing auction lots and traveling to, and participating at shows. Dealers need to put forth a great effort if they are to succeed. All these hours of effort may not even bare any fruit if one is out bid for a collection or a coin at public auction. Some of the battles at auction have been intense. Auction companies are extremely pleased today as the auction business is gaining favor in light of the strict need for select rarities. We here that some of their customers are waiting, and willing to spend huge sums of money to buy the coins that are missing from their coin portfolios. State Quarters, Sacagawea Dollars, Peace Nickels and the new designs on our Paper Money have all made their contributions to the current bull market. We know that more new people are gaining entry into the coin market than ever before. Bids are increasing as are the number of coins needed by retail customers, dealers and the auction companies. All of this demand is chasing an ever shrinking supply of "stuff." However, it still has to be the right stuff and at the right price to sell easily. Dealers can only sell the coins that their customers are looking to buy. However, even if the right coin comes along but the asking price is just too much, then an opportunity is lost. Should I pay more and inventory the coin or just not buy it? That is one dilemma that dealers face today and one that may be repeated as supplies continue to tighten. This kind of activity forced many tough decisions in Milwaukee at the Central States Numismatic Society Show and public auctions. Dealers found themselves in brisk competition of each coin that they wanted. Prices are increasing and so dealers need to raise additional cash to pay for their new buys. Blowing stuff out that has failed to move in a reasonable amount of time is often the solution. Consequently, you will notice quite a bit of discounting taking place in several areas of the sight-unseen market. The market still remains very active and so it is not surprising that we see coins selling just below sight-unseen Bids. However, the coins that are selling for amounts that are **significantly** below sight-unseen Bids are particularly amazing to us. Those dealers that can capitalize on this aspect of the market stand to make handsome, quick profits. Milwaukee auctions brought in the big bucks. Bowers and Merena Rarities Sale on May 4 realized more than $3.78 million. This sale only offered 570 lots, small by today's standards, but still received a huge $6,600 average per lot. Heritage Signature Auction held May 5-8 exceeded $12 million. A few certified highlights are listed for each sale. Many left Milwaukee and headed to Las Vegas, not for vacation but for another show. The Las Vegas Invitational Coin Show will take place at the Mandalay Bay Convention Center May 21-22.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

3 MORE REASONS WHY NGC IS THE UNDISPUTED LEADER IN THE COIN GRADING INDUSTRY

The Certified Coin Registry

The Registry offers a dynamic system for collectors to enjoy friendly competition while assembling remarkable collections. The Registry's fair, expert and numismatically accurate ranking system is truly unique. It accounts for several important factors including grade, rarity, population and the NGC "star" designation for exceptional eye appeal. Accepting coins from the two relevant grading services NGC and PCGS, the Certified Coin Registry is the most inclusive program of its kind. Visit **Collectors-Society.com** for more information.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective with less reflectivity than the deep-mirror Prooflikes. Bids for P/L's are usually much lower than for DMPL's but command some premium over non-P/L strikes

It Pays To Choose The Very Best.

The very best for *you*, that is.

Presenting a new, ground-breaking endeavor to the world of numismatics, and to the exciting arena of rare coin auctions. Spectrum Numismatic Auctions consists of three names familiar to rare coin collectors, now combined to specifically fit your individual needs.

BOWERS AND MERENA AUCTIONS

When great collections are sold ... Bowers and Merena sells them!

The pre-eminent coin auction company of the past three decades, Bowers & Merena has sold hundreds of millions worth of coins, paper money, and other numismatic items on behalf of tens of thousands of consignors. Bowers and Merena has sold four of the five most valuable U.S. coin collections ever formed, including the Louis Eliasberg ($45 million), Harry Bass ($38 million), John Works Garrett ($25 million) and Ambassador and Mrs. R. Henry Norweb ($20 million) collections. In addition, of the seventeen highest prices realized for a rare coin at public auction, Bowers and Merena holds nine of them, including $4.1 million for an 1804 silver dollar sold in 1999. Today, the firm continues its more than 30 year tradition of serving sophisticated, high end coin auction buyers. Contact Steve Deeds at **stevedeeds@aol.com**

Olsen 1913 Nickel Changes Hands At $3 Million More Signs Of A Bull Market

The overall rare coin market continues to gain some ground, but even more importantly it's holding on to the gains that it has already achieved. Consequently, the market remains solid with just a touch of discounting taking place. Several dealers have learned to recognize the signs of a bull market. Many of these seasoned dealers are astute and prudent when buying and selling rare coins. In a good market, the buying side of the rare coin equation takes on greater emphasis. Those dealers that have a solid inventory and a nice selection of rare coins stand to do extremely well. What do savvy dealers look for that tell them when it's time to increase their Bid for coins with confidence? What are the signs? When you think about it, there are quite a few and it's the combination of all of them that equals a very powerful bull rare coin market.

Number one is easy, major rarities sell for extraordinary sums while receiving national headlines. The latest headline goes to a Nickel. The Fred Olsen 1913 Liberty Head Nickel, one of only 5 examples, is reported to have changed hands for $3 million. Blanchard & Co. of New Orleans brokered the **retail** transaction. The new owner, a Midwestern collector has requested to remain anonymous. Optimism is found in the present and predicted for future shows and auctions. Most dealers remain upbeat for 2004 and most are forecasting more of the same for the balance of the year. Some just need to listen to the buzz at shows and/or public auctions. Most analysts still believe that the precious metals are generally in a major bull market, despite the current wave of profit taking. Generic Bids are strong with plus signs occurring frequently as dealers look to accumulate some examples for waiting buyers. The collector base is still expanding. This short sentence is quite powerful as the demands from this new group of young collectors continue to provide an outlet for many coins, common and rare. Exciting things are happening in numismatics with treasure coins, including major rarities that are brought to the ocean's surface. Additionally, a major hoard of Silver Dollars has also come to light out of the dark Nevada warehouse that protected them for four decades. We know that at least one 1893-S Morgan was found among the tens of thousands of Silver Dollars. There are still many coins left to be examined and we anticipate more exciting finds. Public auctions are placing more coins with collectors today with fewer going back to the book. Key dates are sharply increasing in value and demand for coins continues to be very strong. Bidders fight to buy coins as new supplies are offered, especially fresh material. Inventories are constantly under replacement pressure with dealers unable to easily buy another example. Interest rates are very low. This allows those collectors and collector/investors to be more willing to buy rare coins without losing too much interest on his or her money. This combination of forces all point to a bull market.

The sight-unseen market is as solid as it has been all year. All sectors are receiving strong supporting Bids. Increases are still appearing in late May despite some dealers thinking that the market is due for some profit taking. Morgan Dollars, rare date $20 Saints and select Standing Liberty Quarters are pushing the sight-unseen market higher this week. Dealers are simply trying to buy coins and are Bidding, sight-unseen, for four- and five-figure rarities with greater frequency.

Two Los Angeles area auctions are scheduled for late May to early June. Superior will conduct the Pre-Long Beach Elite Coin Auction May 30-June 1. Ira & Larry Goldberg Coins & Collectibles will also host a Pre-Long Beach Auction May 31-June 2. We listed a few certified highlights from each sale.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels. *www cdnpublications com*

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

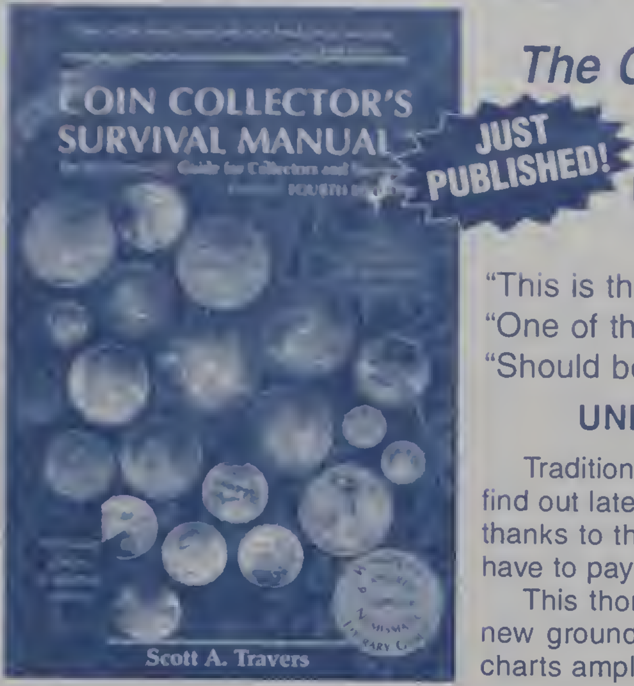
Scott A. Travers proudly presents the newest edition of his bestselling, award-winning numismatic classic



The Coin Collector's Survival Manual® – Revised Fourth Edition

by Scott A. Travers

BEFORE YOU MAKE YOUR NEXT COIN PURCHASE, TAKE A COMPLETE COURSE IN COIN BUYING AND SELLING FOR AS LITTLE AS $19.95.

"This is the book about the coin business you can't afford to be without." - ***NEWSWEEK***
"One of the most important coin books ever written." -***The New York Times***
"Should be read before a single coin is bought - and read again and again!" -***Coin World***

UNPRECEDENTED SIX-TIME NUMISMATIC LITERARY GUILD AWARD WINNER

Traditionally, learning a lesson in the rare coin market has been very expensive. You would buy a coin for $500, find out later that it was worth only $50, and, thus, you would have to pay $450 to learn just one lesson. But now, thanks to the revised fourth edition of *The Coin Collector's Survival Manual*®, by Scott A. Travers, you no longer have to pay a fortune to learn about how to buy and sell coins profitably.

This thoroughly revised edition examines the coin field from an insider's perspective and continues to break new ground in revealing the ins and outs of coin collecting and investing. Excellent photographs and detailed charts amplify the encyclopedic, clearly written, meticulously organized text. You'll learn about the following:

- How to look at coins the way the professionals do
- **How to determine what a coin is worth and what grade the leading certification services would assign to it**
- How to spot slight friction on otherwise "Gem" coins
- How to tell the difference between proof and prooflike
- **How lighting affects appearance—and the latest in halogen flashlights**
- Altered and counterfeit detection techniques
- How to judge price guide accuracy
- Selecting and testing a coin dealer
- **How not to get ripped off if you buy coins through the mail or over the Internet — courageous information**
- Profitable - and not-so-profitable - liquidation techniques
- **How to buy and sell at conventions like the pros do**
- How to spot a cleaned and artificially toned coin
- **A comparison of PCGS versus NGC — which service does the market really favor?**
- Stunning exposé and bombshell interview on coin "doctoring"
- **Special full-color section on artificially toned and doctored coins**

SPECIAL SECTIONS ON:

- **Doctored coins, how to detect them, and the case of the doctored hoard of gold rarities that got slabbed**
- The real truth about slab services "fixed grading standard" claims and premium quality coins
- Revelations from a leading coin trader
- **A grading service founder's startling admission of modified grading standards**
- The newest tax laws

CONTAINS ALL-NEW INFORMATION ON:

- **Gold coins as an economic safe haven**
- Coin conservation services
- **Coin insurance and safekeeping in light of September 11, 2001**
- The latest Internet strategies
- **Digital photography pointers**

and much, much more!

Market Demand Keeps Dealers Positive
1892-CC Dollars Jump In MS63

The rare coin market is closing out May on a high note. The resiliency of the market is only matched by the continued strong collector/investor demand that's been supplying the fuel. That is why many dealers continue to remain positive about the rare coin business and especially its future. These dealers are extremely pleased with the increases in the number of, and dollar amount of the sales that they are generating. Many are saying that they have never done as much business and that times are certainly great. Of course, it helps if you have a ready inventory of the coins that are selling. Short of a strong inventory, one must have a ready line of credit sufficient enough to buy the rarities and coins that become available. Gold and Silver are another reason why things are looking so promising. It appears, as of this writing, that the precious metals have returned to their bullish ways. This aspect of the market allows bullion seekers an opportunity to branch out into the realm of rare coins. This scenario is just what an expanding collector base needs to keep up its strong momentum. All of this good numismatic news and especially the increasing metal Spot prices come at a good time. That's because the June 3-5 Long Beach Expo, and the public auctions that surround this major California show grow near. Long Beach set-up day is June 2. Knowledgeable dealers believe that it is wise to spend one's money carefully. Competition is expected to be keen but the large supply of product in one place should provide some sharp dealers an opportunity to capitalize on some nice material at reasonable levels. Superior Galleries will begin with the Pre-Long Beach Elite Coin Auction May 30-June 1 in Beverly Hills. Ira & Larry Goldberg Coins & Collectibles will also host a Pre-Long Beach Auction to be held May 31-June 2 in Los Angeles. Heritage will conduct their Long Beach Signature Sale June 3-5 in Long Beach.

This week's sight-unseen market may be experiencing some of that dealer anticipation to hold back some funds. Bids are still increasing but not with the same volume and voracity that we have become used to seeing on a weekly basis. However we would be remiss if we didn't point out the large number of supporting Bids that are still taking place throughout the market. Many of these areas, while void of plus signs, are still solid with dealers avidly trying to buy select issues for their clients. We also see that the market side, while not particularly discounting many coins, is narrowing the gap a little between the Bid and the Ask. As the gap closes more sales will take place. Meanwhile, the Morgan Dollar section is still finding willing Bidders that is keeping this series in positive territory. Increases are targeting many of the usual favorites such as Carson City and semi-key dates. The 1883-S is nice example of a Morgan semi-key, in MS63, that is appearing with a plus sign. An increase of approximately $100 each is seen for NGC and PCGS examples. Still, Carson City dates continue to steal the Dollar Bidding thunder by receiving lion's share. This week's **amazing** gain of nearly 20 percent for 1892-CC examples in MS63 gives one a sense of just how powerful the demand is for select "CC" Dollars. Among Peace Dollars, generic MS66 dates scored well with five percent gains, now with sight-unseen Bids at $420. Silver Commemoratives are also quite active this week with Bidders pushing several issues to higher ground. Some of the Commems that are increasing include: Isabella Quarters, Lafayette Dollars, Cleveland, Bridgeport, Hudson and 1892 Columbian Half Dollars. Many dealers believe that these popular coins represent good value at current levels. Consequently they are trying to add a few to their inventories.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services determined through careful study of market activity (including the figures nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels

Certification does not guarantee protection against the normal risks associated with potentially volatile markets.
Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer–to–dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks sell lists coin shows and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy**: During the thirty days prior to publication, we track the lowest sales–related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" Lowest asking price during the week prior to publication (week old); "m" – Lowest asking price during the previous three weeks (*m*onth old); "t" *T*rade during the most recent month; "lm" Lowest asking price appearing *l*ast *m*onth, "lt" *T*rade appearing *l*ast month; "ot" *T*rade *o*lder than 2 months; " " a blank, for all Market prices older than two months; "**a**" for auction transactions; "**oa**" – auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight–unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Searching For Material At The Expo
Pre-Long Beach Auctions Realize $11.5 Million

The theme that dealers have been saying throughout the past several weeks continues to hold true in Long Beach. "It's very difficult to buy rare coins." Dealers attending set-up day were actually quite active even before getting onto the huge bourse. Several told us that they were busy transacting business in their hotel rooms prior to the opening of the Expo. Many dealers believe that it is extremely important to see as many coins as they can and as quickly as they can. They are trying to get a jump on the competition, preventing fierce Bidding from equally hungry buyers. Dealers are now busy going from table to table at the show trying to view inventory before it is picked-over by others. Often table holders are too busy to accommodate all interested buyers forcing some to come back later. One problem for dealers looking to buy is often fighting their own impatience. Some will return later only to be hounded by other buyers looking over their shoulders and offering Bids of their own. This intensity only adds to one's frustration. Buying coins is the major reason many dealers attend the Long Beach Expo. Prices are very steep for available coins, but still plenty of business is taking place. Many of the dealers tendering Bids are doing so from extremely deep pockets, blowing away much of the smaller competition in the room. Fortunately it's a large show with ample opportunity for success. As usual, Gold and Silver spot declined in value just prior to the show's opening. Yet, many dealers just brushed off this bit of negativity and went on with business at hand, trying to buy coins.

Interest is intense for rare date Gold. Specialists are seeking Branch Mint Gold, especially Carson City issues, early Gold and Proof Gold. It appears that there is plenty of money available looking to buy some of this outstanding material. Morgan Dollars are heavily sought-after from rare date through the generics. Some Dollar specialists are amazed at the levels the generics are reaching. They can remember, not too many weeks ago, when they could have bought so many for much lower prices. You know what they say about hindsight? The Type markets are equally strong with customers lined up waiting to buy coins. Dealers are continually looking for fresh Type and we see that supporting Bids are all over the sheets with some increases as well. Silver Commems have been doing better with increasing Bids becoming a more common occurrence these days. Key and better date coins are also receiving attention from dealers. These coins seem to be on everyone's wish list and so the competition is very heated.

Dealers were also commenting on the intensity and price levels being attained at auction preceding the show. We have listed a few of the many certified highlights from the more than $6 million Superior Galleries auction and the more than $5.5 million Ira & Larry Goldberg C&C Pre-Long Beach sale.

The "King of VAMs"

The VAM 44 Discovery Coin!

In 1963, a young Berkeley engineering student encountered a revolutionary booklet, entitled *Morgan Dollar Varieties* by F.X. Klaes. In this small volume, a previously unknown 7/8TF "Doubled Leaves" variety was among the coins featured. And the rest is history!

The student was none other than Leroy Van Allen.
And the coin? It was the first VAM 44, the "King of VAMs."

And naturally, IT'S IN AN ICG HOLDER!

It Pays To Choose The Very Best.

The very best for *you*, that is.

Presenting a new, ground-breaking endeavor to the world of numismatics, and to the exciting arena of rare coin auctions. Spectrum Numismatic Auctions consists of three names familiar to rare coin collectors, now combined to specifically fit your individual needs.

BOWERS AND MERENA AUCTIONS

When great collections are sold... Bowers and Merena sells them!

The pre-eminent coin auction company of the past three decades, Bowers & Merena has sold hundreds of millions worth of coins, paper money, and other numismatic items on behalf of tens of thousands of consignors. Bowers and Merena has sold four of the five most valuable U.S. coin collections ever formed, including the Louis Eliasberg ($45 million), Harry Bass ($38 million), John Works Garrett ($25 million) and Ambassador and Mrs. R. Henry Norweb ($20 million) collections. In addition, of the seventeen highest prices realized for a rare coin at public auction, Bowers and Merena holds nine of them, including $4.1 million for an 1804 silver dollar sold in 1999. Today, the firm continues its more than 30 year tradition of serving sophisticated, high end coin auction buyers. Contact Steve Deeds at **stevedeeds@aol.com**

CERTIFIED COIN DEALER newsletter

CCDN — a weekly report on the ***Sight-Unseen*** *certified market published by the Coin Dealer Newsletter (est. 1963)*

Vol. XIX No. 24 June 11, 2004 Single copy price $4.00

Sight-Unseen Market Remains Strong
Double Eagle Rarity Brings $542,800 At Auction

The rare coin market was outstanding during the Long Beach Expo and at the public auctions that accompanied this major west-coast show. Most of the dealers participating on the bourse had nothing but optimistic comments to relay. This optimism stems from their belief that the collector base is in excellent shape and is continuing to expand. They also understand how crucial the demand for rare coins and its growth is to the market while it continues to dominate the supply. Consequently, those dealers at Long Beach that needed to sell coins were able to do so rather easily. These dealers were especially pleased with the strong levels that they were receiving for their coins. This same scenario holds true for those dealers that were consigning rare coins to public auction. Strong Bids and hammer prices have made consignors equally happy. The June 3-5 Heritage Signature Sale realized $13.8 million and was highlighted by the $542,800 paid for an NGC Specimen 63 1856-O $20 Liberty. There appears to be plenty of money available for rare coins, even of this caliber. Still, it's not just the rarities that are selling. We saw **Circulated** Type, Morgan Dollars, Mercury Dimes, Buffalo Nickels and Indian Cents changing hands as well. Dealers are encouraged by the activity and expect the next several weeks to be on track to produce a successful and bullish American Numismatic Association Summer Convention.

Gold and Silver have since weakened after Long Beach and this weakness usually puts a damper on some aspects of the market. As of this writing, Gold dropped to $387 per ounce while Silver is down to $5.69 per ounce. Analysts believe that inflationary concerns felt by the Federal Reserve Chairman Alan Greenspan may cause him to do what is necessary to slow inflation. This often means increasing the interest rates. The weakness in Gold is already beginning to show with mixed results seen in our Mint State Gold Type columns. A closer examination of the Ask side of the market will point out some interesting information. The market spread between Bid and Ask has tightened as some coins are selling near, or even below current Bid levels. Some dealers are supporting select areas of the generic certified Gold market. Strong demand from customers willing to pay strong levels may account for this anomaly. Still, astute dealers can capitalize on this discrepancy if they make it their business to study all aspects of the market. Of course, they also need to stay right on top of things and act quickly before the situation changes.

From what we can see, the sight-unseen market continues to receive its fair share of Bids. Strong sight-unseen Bids are found in many areas of the market with dealers trying to buy some of these coins at levels they still believe to be bargains. Early Gold is one area that is receiving many strong sight-unseen Bids that frequently hit the four- and five-figure price range. These Bids should remain in place as this is an area of the market that continues to receive strong demand from well-heeled collector/investors. Dealers have been telling us for some time how strong the demand is for key dates. And, it is the key dates that have done extremely well in 2004. We see this demand continuing with Washington Quarter keys sporting jump Bids this week. Strong increases are seen for NGC and PCGS 1932-D, 1932-S and 1936-D examples. Morgan Dollars continue their Bidding assault that has taken them to the head of the numismatic class. Generic Morgans are highly sought-after with MS65 and MS65 Prooflikes moving a bit higher for both NGC and PCGS. Carson City and other rare date issues rival generics as dealers try to accumulate enough of them to meet the demand. Silver Commemoratives are mostly higher with dealers trying to fill orders. A Commem specialist told us that interest in the Silver Commems has been increasing. Buyers are looking for quality coins while trying to complete both short and long Commem sets. Gold Commems have suffered some discounting this week. Sales of these high dollar coins make them an attractive pick for dealers when they need to raise some funds. This is especially true for Gold Commems at the MS65 and higher grades.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels. *www.cdnpublications.com*

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

PROOFLIKE MORGAN DOLLARS

PL Dollars may be semi-reflective with less reflectivity than the deep-mirror Prooflikes. Bids for PL's are usually much lower than for DMPL's, but command some premium over non-PL strikes.

HOW TO MAKE MONEY IN COINS RIGHT NOW, 2ND EDITION

by SCOTT A. TRAVERS

"Don't go to a coin dealer without reading this book first."
– Hank Gilman, Business Editor, ***NEWSWEEK***

"If making money by buying and selling coins is your game, Scott Travers' ***How to Make Money in Coins Right Now*** is a must-read. As an insider, he puts you on the playing field with the pros. Chapter by chapter, he reveals strategies for being a winner."
– Beth Deisher, Editor, ***Coin World***

"The most valuable book ever written on how to profit from coins."
– Ed Reiter, Senior Editor, ***COINage*** magazine

"A revolutionary book."
– Armen R. Vartian, Legal Counsel, **Professional Numismatists Guild**

"A no-holds barred examination of insider secrets that can be used for startling, quick profits. Stands alone as the most penetrating guide of its kind ever published."
– Maurice Rosen, **Rosen Numismatic Advisory**

Ultimate insider Scott Travers shows you the tricks of the trade with clear examples of how you, too, can outsmart the grading services. You'll get information never revealed before from experts who have handled hundreds of millions of dollars worth of rare coins. Here are just some of the many topics covered:

WALKING LIBERTY HALVES

If your coin will stand on its own merits regardless of the certified grade, a higher *CDN* Bid may be more indicative of current market value.

East Coast Show Has Active Beginning
Proof Gold, Silver Commems & Dollars Push Higher

Dealers need rare coins to fill standing orders and their clients are patiently waiting to pay strong money for them. Many dealers are actively searching for material while attending the Whitman Coin & Collectibles Expo in Atlanta. The promoters of this new show are hoping it becomes another major east coast event that dealers will add to their schedule. The June 17-19 show was active during dealer set-up with numerous transactions taking place. One dealer told us that he completed more than $50,000 in transactions during set-up with the day still not yet over. Many early bird vest-pocket dealers are also on the bourse in Atlanta trying to buy some of the coins that they need for their customers. Gold is heating up with $20 Saint-Gaudens being especially active during the opening hours of the show. Buyers are concentrating on the better dates of this series looking for them in grades from MS63 thru MS66. Take a look at the sight-unseen Bids for 1931-D examples in grades MS62 thru MS64.

Silver Commemoratives have continued their recent momentum with a number of issues increasing this week. Dealers are targeting Commems in collector grades from Circulated condition thru Mint State 64, as they believe them to be undervalued. Many of these issues are priced below $100, and as such makes them an attractive target for retail. That's because these popular Commems fit the budget of nearly all collectors. Some Commemorative Half Dollar issues sought-after by dealers include: Huguenot-Walloon, Iowa, Lexington, Maine, 1920 &1921 Pilgrim, Robinson-Arkansas, San Diego and the Stone Mountain. Each of these Commems represents an affordable and attractive Silver rare coin. Morgan Dollars are also in demand at the Atlanta Expo. Like on the bourse and at auction, Bids for Morgans on the electronic trading networks have increased substantially this year on top of a powerful 2003. Dealers explain that many of today's Morgan Dollar buyers are from the baby boomer generation. The sight-unseen market for Morgan Dollars is reflecting many of their needs. Key and semi-key San Francisco and Carson City issues are among the demand leaders today. You will notice that increases in several grades are appearing for 1884-S, 1886-S, 1888-S, 1903-S and 1904-S dated Dollars. These dates in Mint State condition are extremely desirable and highly sought-after. Obviously the price levels continue to climb as this strong demand remains in place. Better date Carson City issues including: 1889-CC, 1890-CC and 1891-CC are also receiving strong, higher sight-unseen Bids. These particular "CC" dates are some of the more difficult to locate issues and it appears that buyers are willing to increase the ante for them. The 1890-CC in MS64 is featuring jump Bids of 25 and 14 percent respectively for NGC and PCGS examples. Generics have softened a bit with a decline in NGC MS66s to $295. We also notice that sellers are more willing to unload quantities of generic Dollars at, or near today's **strong** Bid levels.

The sight-unseen market is experiencing at little bit of market shuffling this week. Several series and segments are being discounted while others are increasing. Overall though, strong supporting Bids are dominating an otherwise bull rare coin market. Discounting is most prevalent among late date Walking Liberty Half Dollars in MS65 thru MS67. Sight-unseen Bids have been pushed up hard and fast for these popular coins and are probably overdue for some profit taking. Minus signs are also found within the Proof Single Bid columns. Specifically, Mercury Dimes in PR65, PR66 and PR67 are being hit. Several $20 Saints are being discounted (while a few others display plus signs). Some slight declines are also occurring within Type. Yet, Proof and Mint State Type remain very strong overall with Bidders increasing Bids for Proof Type II Three Cent Silver, 2-Cent pieces in MS65 Red and MS62 Draped Bust Dimes. Dealers have said for the past several weeks that Proof Gold is heavily sought-after. This week that observation has translated into plus signs. $2.50, $5 and $10 Liberty Proof issues have increased while $3 Gold and $20 Saints in Proof also moved higher. This strong demand for rather expensive rare coins points to the underlying strength and power of the current bull market. It also solidifies the market wisdom of dealers who noticed this trend before seeing the plus signs. Increases in Proof Gold are solid evidence that strong money is still on the sidelines trying to buy top-of-the-line rare coins. Mint State Gold is mostly higher with several denominations participating.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels. *www.cdnpublications.com*

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

Discover NGC's Unparalleled Approach to Service.

NGC offers the numismatic community a truly rare commitment. Our best-in-class services, industry-leading experts and a customer-focused approach give dealers and collectors alike a comprehensive grading services partner.

The Finest Services

NGC's comprehensive offering means that you have access to the numismatic services you need to make the most of your collection. From our expert grading and industry-leading holder to our comprehensive registry, our services are designed to help fulfill your passion for the hobby. Plus, we offer unparalleled conservation services through our exclusive partnership with Numismatic Conservation Services (NCS).

The Leading Experts

The diverse numismatic backgrounds and unchallenged experience of our graders combine with our uncompromising standards of integrity and objectivity to make NGC the most respected grading service in the industry. NGC graders are prohibited from buying or selling coins, therefore guaranteeing impartiality. This is one of the main reasons we are the only grading service ever endorsed by the ANA, America's only official coin collecting organization chartered by Congress.

The Right Approach

NGC is the only grading service that provides dealers and collectors with a seamless source for having coins conserved if necessary, graded and registered. We also offer the industry's strongest guarantee, giving our customers complete confidence in the grade and authenticity of their NGC graded coins.

ICG is Proud to Present

The "King of VAMs"

1878 7/8TF
DISCOVERY COIN

The VAM 44 Discovery Coin!

In 1963, a young Berkeley engineering student encountered a revolutionary booklet, entitled *Morgan Dollar Varieties* by F.X. Klaes. In this small volume, a previously unknown 7/8TF "Doubled Leaves" variety was among the coins featured. And the rest is history!

The student was none other than Leroy Van Allen.
And the coin? It was the first VAM 44, the "King of VAMs."

And naturally, IT'S IN AN ICG HOLDER!

Contact James Taylor for an ICG dealer submission kit.

Hot Sight-Unseen Market Continues

1870-S Half Dime, 1873-CC No Arrows Dime In July Auction

There are no signs of the **sight-unseen** market slowing down, even as Summer begins. Dealers are quite amazed and excited that this bull market is firmly entrenched with many buyers still waiting to own rare coins. One east coast dealer said, "It's a very **very strong market**." Part of its strength is being credited to the continuing demand for Gold and Silver bullion. Many dealers are in suspense, about the metals, but they still believe that Gold is heading much higher. They are talking about $500 and $600 per ounce Gold and it's this kind of talk that will help give the bull market its legs. Optimism is flowing as Gold shoots through $400 and Silver over $6 again. One dealer commented about future higher Gold prices that, "They expect it to happen but they remain cautious." After all, rare coin dealers are also rare coin collectors and buyers and it is this sustained buying that has helped propel the market forward.

Proof of the strong market is primarily coming from the expanding collector base. The evidence is all around. In some respects the expansion is seen by the number of numismatic books being sold. We learned, from one numismatic author, that sales of a number of introductory numismatic books are **"up dramatically."** Besides book sales, the American Numismatic Association's membership is at its highest point since 1986. Circulation numbers have also increased for several numismatic periodicals. This combination of favorable market factors only reinforces the belief that increasing numbers of people are entering the rare coin arena. Dealers tell us that the scope of the strong demand is extremely wide but it is also **specifically** focused. Buyers are very selective and they want what they want and will go elsewhere with their money if they are not being accommodated. This selectivity by buyers makes things a little more difficult for coin dealers. Ironically this comes at a time when inventories have been dangerously depleted. Dealers need to offer the right date, grade, Type or variety for a sale to be consummated. Otherwise they may lose a customer to another who has the right material.

The sight-unseen certified coin market continues to move upward with dealers increasing Bids for select issues and supporting Bids for many others. Customer demand, like the collector base is still growing and these buyers want action. Walking Liberty Half Dollars have been very active this week. Sight-unseen Bid increases are targeting a number of tougher semi-key and early dates in various Mint State grades. Interest is strong for many dates from 1916-1940 while practically deserting the short-set dates. Again this demonstrates how specific the demand is for rare coins. Dollars are still in command. The lack of a sufficient number of buys from previous Bid increases has forced some dealers to push the Bid even higher for select generic and better date Morgan Dollars. Yet, we still see strong, unsatisfied demand for select dates from this challenging series. Morgans have been on a wave and this momentum has carried into summer. Buffalo Nickels are experiencing increased activity as well. Demand is targeting a wide dollar range from the $57 Bid for a 1936-S in MS65 thru the $80,000 Bid for a 1926-S in MS65. What a difference 10 years can make. Mint State Type continues to be sought-after as dealers increase Bid for a myriad of issues including: 3¢ Nickels, 3¢ Silvers, Shield & Liberty Nickels, Capped Bust Half Dimes, Liberty Seated Dimes and Barber Dimes. Proof Type is solid with collector interest and is a perfect example of the exceptional diversity of demand. Gold Type is generally higher in the lower grades due to an increased Spot.

Bowers and Merena will conduct the July 2004 Baltimore Auction featuring Jim Gray's North Carolina collection on July 8-9. A few certified highlights are listed herein.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services determined through careful study of market activity (including the [illegible] nationally reported sight unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer–to–dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin shows and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy**: During the thirty days prior to publication, we track the lowest sales–related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "**w**" – Lowest asking price during the week prior to publication (week old); "**m**" – Lowest asking price during the previous three weeks (month old); "**t**" – Trade during the most recent month; "**lm**" – Lowest asking price appearing *last month*; "**lt**" *Trade* appearing *last* month; "**ot**" *Trade* older than 2 months; " " a blank, for all Market prices older than two months; "**a**" for auction transactions; "**oa**" – auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight–unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

It's good to be back.

From dealer to grader, now back to dealer, exciting times are here.

John Maben
President & Chief Numismatist
John Maben Rare Coins, Inc.

I am proud to announce the launch of my new company, John Maben Rare Coins (JMRC).

In case we have not met, I have been in the coin business since 1978, with the last 8 years grading at NGC and 7 of those as a Grading Finalizer. Over the years, I have purchased tens of millions of dollars worth of coins, and graded and authenticated millions of coins to the highest industry standards.

And now, with the opening of JMRC, I have set my sights on being a coin company that reminds people of the good old days, when things were far less complicated. By that, I mean we are here to deliver a complete range of beginning-to-end services that assist other dealers, advanced collectors, and investors in maximizing their returns when buying and selling coins. No hyper-specialization, no investor-only or dealer-only emphasis.

JMRC is a well-rounded, full service company you can trust, and enjoy working with on a regular basis. Simply put, I would like to put my years of experience to work for you in those situations where you need definitive answers and a "total numismatic solution."

If you are selling and looking for the "right" company to assist you in an orderly disposition that will maximize your profit potential, JMRC is here to provide the one-stop services you need. If you are building a collection or portfolio, and would like professional guidance from a knowledgeable and trusted source, JMRC is here to serve you.

Consider that, as President of JMRC, I am uniquely qualified to offer you all of these benefits:

- Advice on a coin you are thinking about buying for a significant upgrade. Who better to ask?
- Direction on a coin where professional conservation care might make all the difference. As a key contributor both conceptually and materially to the formation of Numismatic Conservation Services (NCS), the only firm of its kind, I have extensive experience in evaluating coins as candidates for conservation.
- Extensive contacts and decades of experience that will assist in obtaining top dollar when selling.
- Relationships with major auction companies that allow me to negotiate for you when consigning, and to make representation on your behalf when buying.
- Assistance in determining how much to bid on individual coins and collections.
- The ability to put together and finance any size numismatic deal.
- A recognized "eye" for precision grading that is nearly unrivaled, even among professional graders.
- The convenience of our "next door" location to NGC and NCS, in the Sarasota, Florida area.

Whatever your needs, JMRC is here to help you buy and sell more coins, more profitably.

At JMRC, we are strong buyers of U.S. coins, of all dates, denominations, and rarities. I am exceedingly familiar with all coins of the U.S. Mint. I am willing to partner deals with you using my funds to make the purchase if you so desire. I will be attending all major shows and auctions, as well as many local shows. Along with Margie Sheaffer and Tom Thomas, both veterans of the coin business, we look forward to putting our combined 75 years of experience to work for you in the near future. Just let me know how we can be of help to you! We want to be "Your Total Numismatic Solution."™

Another Satisfied Customer!

Dale Larsen and John Brush
Spectrum Numismatics
P.O. Box 18523
Irvine, CA 92623

Dear Dale and John:

I'm unable to forget your handsome faces, what with Dale's note and card, plus the way you two keep appearing in Numismatic News and Coin World.

You can count me in as another satisfied customer. And the $72,000 is already being spent on world silver, plus a few other indulgences. You're a good team and enjoyable to be around.

Keep smiling.

"A satisfied customer in Idaho"

Dale Larsen is a coin collector turned rare coin dealer. "I've walked a lot of miles in the collector's shoes and I know how he or she likes to be treated," Larsen says. His specialty is coins with "great eye appeal" and he "loves dealing with the public." Please contact Dale at **DaleSpec@aol.com**

Upon graduation from Birmingham-Southern College, where he was a part-time coin dealer, he joined Spectrum Numismatics. John works with sales, purchasing of coins and collections, coin grading, and authentication. "I enjoy coins from an historical and collector's point of view and would love to hear from you." Please contact John at **jbrushspectrum@aol.com**

Selling your coins to **Spectrum Numismatics** is as easy as one, two, three. In fact, it's even easier than that. Just give us a call, drop us a line or send us an e-mail. We'll take care of the rest.

Silver Commems Explode Baltimore Show & Auction Up Next

July means summertime and it is usually a hot month, temperature wise around the country but it also describes that state of the rare coin market. At least, that is, for the initial days of July. This is what dealers are telling us who are attending rare coin shows and this is also what other dealers are telling us as they conduct business from their coin shops. Business is good with solid demand for rare coins seen throughout the market. Of course some areas are better than others, nevertheless supply is still not able to completely satisfy the current demand. One dealer summed up the current conditions simply by saying, "The market appears to be really solid." He has attended several coin shows during the past month and he has told us that there is a lot of business taking place, on and off the bourse. Gold Spot has been fluctuating dramatically during this period but Mint State Gold Type has been more calm than its bullion counterpart. Still, dealers believe that Silver and Gold are headed much higher and so they are not as quick to sell out their positions based on the day-to-day Spot results. For dealers, rare coin shows have resulted in a lot of wholesale business activity. This activity is currently taking place at the July 2-4 Clearwater Coin Show in Dunedin, Florida. Key dates, rare date Gold and any nice, attractive Mint State or Proof Type coins are highly sought-after. Circulated Type is also a hot item. When any of this material is located the asking price is rather steep. Still, dealers are willing to pay the higher prices if it leads to pleasing one of their good customers. However, several dealers recognize that these smaller shows (compared to the majors) do have their shortcomings. This is especially true when the talk is focused on fresh material. That is their biggest complaint, "There's not enough fresh material to choose from at shows." This has been a problem throughout 2004, even at the largest shows with **less** fresh material available forcing dealers to Bid very strong prices to buy the good stuff when it appears at public auction. That's why auctions featuring fresh material are realizing super prices.

This week's sight-unseen market may be an indication that July will maintain its general strength that it has been enjoying all year. The Silver Commemorative Bid columns for NGC, ANACS and PCGS are covered with a load of plus signs. We again see that dealers are putting strong emphasis on the lower grade Commems. Dealers just believe that these grades have been overlooked and they are seriously undervalued. That's why the plus signs are so numerous for grades MS61 thru MS63. Morgan Dollars are relatively quiet compared to many weeks of strong increases. However, generic NGC and PCGS MS66 and MS67 examples have edged even higher now Bid $320 and $840 respectively. Meanwhile, solid Bidding is being maintained for many of the better dates of the series. Check out Uncirculated **GSA** 1879-CC Dollars at $4,350 Bid. Mint State Type has been good for most of the year. Interest is still strong today but dealers tell us that nice Type is few and far between. Consequently, more dealers are left with little choice but to increase their **sight-unseen** Bids. Notice the increases for Barber Halves and Liberty Seated Dollars this week. Mint State Gold is active with $3 Gold issues advancing in several grades up to MS65, while Type 1 Gold Dollars are higher up to MS67. Buffalo Nickels have come alive again with Bids increasing for many dates throughout the series. Be sure to notice that several of those Bids are targeting five-figure Buffs. Mercury Dimes are dormant no longer. Plus signs are found for several quality dates and Mints. MS67 Full Band is realizing the largest portion of that demand.

Dealers expect the market to be sound at the upcoming Baltimore Coin & Currency Convention to be held July 9-11 in Maryland. The proximity of this show is its greatest asset. It is easily accessible to many large populated east coast cities and certainly many coin collectors.

3 MORE REASONS WHY NGC IS THE UNDISPUTED LEADER IN THE COIN GRADING INDUSTRY

The Certified Coin Registry

The Registry offers a dynamic system for collectors to enjoy friendly competition while assembling remarkable collections. The Registry's fair, expert and numismatically accurate ranking system is truly unique. It accounts for several important factors including grade, rarity, population and the NGC "star" designation for exceptional eye appeal. Accepting coins from the two relevant grading services NGC and PCGS, the Certified Coin Registry is the most inclusive program of its kind. Visit **Collectors-Society.com** for more information.

UNPRECEDENTED SIX-TIME NUMISMATIC LITERARY GUILD AWARD WINNER

Traditionally, learning a lesson in the rare coin market has been very expensive. You would buy a coin for $500, find out later that it was worth only $50, and, thus, you would have to pay $450 to learn just one lesson. But now, thanks to the revised fourth edition of *The Coin Collector's Survival Manual®*, by Scott A. Travers, you no longer have to pay a fortune to learn about how to buy and sell coins profitably.

This thoroughly revised edition examines the coin field from an insider's perspective and continues to break new ground in revealing the ins and outs of coin collecting and investing. Excellent photographs and detailed charts amplify the encyclopedic, clearly written, meticulously organized text. You'll learn about the following:

- How to look at coins the way the professionals do
- **How to determine what a coin is worth and what grade the leading certification services would assign to it**
- How to spot slight friction on otherwise "Gem" coins
- How to tell the difference between proof and prooflike
- **How lighting affects appearance—and the latest in halogen flashlights**
- Altered and counterfeit detection techniques
- How to judge price guide accuracy
- Selecting and testing a coin dealer
- **How not to get ripped off if you buy coins through the mail or over the Internet — courageous information**
- Profitable - and not-so-profitable - liquidation techniques
- **How to buy and sell at conventions like the pros do**
- How to spot a cleaned and artificially toned coin
- **A comparison of PCGS versus NGC — which service does the market really favor?**
- Stunning exposé and bombshell interview on coin "doctoring"
- **Special full-color section on artificially toned and doctored coins**

SPECIAL SECTIONS ON:

- **Doctored coins, how to detect them, and the case of the doctored hoard of gold rarities that got slabbed**
- The real truth about slab services "fixed grading standard" claims and premium quality coins
- Revelations from a leading coin trader
- **A grading service founder's startling admission of modified grading standards**
- The newest tax laws

CONTAINS ALL-NEW INFORMATION ON:

- **Gold coins as an economic safe haven**
- Coin conservation services
- **Coin insurance and safekeeping in light of September 11, 2001**
- The latest Internet strategies
- **Digital photography pointers**

and much, much more!

The VAM 44 Discovery Coin!

In 1963, a young Berkeley engineering student encountered a revolutionary booklet, entitled *Morgan Dollar Varieties* by F.X. Klaes. In this small volume, a previously unknown 7/8TF "Doubled Leaves" variety was among the coins featured. And the rest is history!

The student was none other than Leroy Van Allen.
And the coin? It was the first VAM 44, the "King of VAMs."

And naturally, IT'S IN AN ICG HOLDER!

Auctions Crowd July
Buffalo Nickels Bid Higher

Optimism is still running rampant as many dealers are already in Baltimore attending the coin show and auctions associated with it. Part of the optimism that is present among dealers stems from the improving precious metal prices. If the recent push above $400 per ounce for Gold sticks, along with Silver near $6.40 then many dealers believe that this bull **rare coin** market could launch into high gear. Demand remains very powerful with dealers working the bourse at Baltimore trying to buy some of those difficult to come by want list coins. They hope to find fresh material as well because that is what they need to make the trip completely worthwhile. In any event, the auctions should provide some of the coins that they so desperately need for their clients. Of course, the competition will most likely be tough as many other dealers are also trying to buy similar material.

This July is a particularly busy time in the rare coin market with several auctions scheduled to take place. Bowers and Merena is up first with their July 8-9 sale in Baltimore, MD. New York City will be the next stop July 20-24 with auctions to be conducted by: David Lawrence Rare Coin Auctions, American Numismatic Rarities, Smythe, Heritage and Stack's. Scotsman Auction Company will hold the final July sale in St. Louis MO July 30-31 in conjunction with the Coin Festival. Fresh material and major rarities will definitely become available during these next few weeks with prices realized expected to be strong. Dealers understand how important it is to stay liquid so that they can take advantage of this opportunity.

The sight-unseen market is demonstrating just how robust things really are with tons of supporting Bids combined with several interesting Bid increases. Also, a noticeable lack of any significant number of minus signs clearly indicates the underlying strength that is indicative of today's bull market. Morgan Dollars are clearly near the top when it comes to discussing the hottest segments of numismatics. Yet, an unusual occurrence has transpired this week with virtually no plus signs to be found on our weekly Dollar pages. The tide has not reversed because strong **sight-unseen** Bids remain in place at their existing levels. Also, some plus signs are appearing on our Supplemental Page E for Prooflike Morgans. Buffalo Nickels have been a collector favorite for a long time and we know that the Registry Set attraction has only added to that demand. Buffalo Nickels are still receiving a large number of increased Bids. Dealers seem to be targeting the upper Mint State grades with MS65 thru MS67 getting most of the action. Key dates have been a major need for dealers throughout the year and that demand is easily seen in this series. Those collectors working on MS65 or better sets of Buffaloes know how much more money it takes compared to building sets that only grade MS63 or MS64. Notice the huge difference in Bid on some of the toughest San Francisco Mint dates like 1919-S, 1920-S, 1923-S, 1925-S and 1926-S. Discriminating collectors always seem to be searching for Buffaloes with full strikes. Still, even though dealers have customers waiting to pay the big bucks the availability remains a concern. Silver Commemoratives are another area that is sporting several plus signs. This series has been gaining strength over the last few weeks as buyers try to latch on to several undervalued Commems. The Early Gold market is very solid. We see an enormous amount of strength seeking these historic jewels. Notice the $20,000 Bid for 1797-1807 Draped Bust, Large Eagle $5 examples. Also, Classic Head Half Eagles are higher, now Bid $1,750 **sight-unseen** in MS60 for NGC or PCGS specimens. Gold Type is also doing well with heavy demand seen for $5 Indians. Type continues to take its place with the market leaders. This week, plus signs are occurring for select Proof Barber Dimes and Liberty Seated Quarters with Motto.

American Numismatic Rarities will host the Oliver Jung collection July 23 in New York. We listed only a few of the many highlights.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels. *www cdnpublications com*

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

PROOFLIKE MORGAN DOLLARS

PL Dollars may be semi-reflective, with less reflectivity than the deep-mirror Prooflike. Bids for PL's are usually much lower than for DMPL's, but can exceed some premiums over non-PL strikes.

CERTIFIED COIN DEALER newsletter

CCDN — a weekly report on the ***Sight-Unseen*** *certified market published by the Coin Dealer Newsletter (est. 1963)*

Vol. XIX No. 29 July 16, 2004 Single copy price $4.00

Sight-Unseen Bids Increase For Type Silver Commems Continue To Climb

All markets experience peaks and valleys and that might be what is taking place in our market. One dealer pointed out that we are experiencing a plateau period within the bull market cycle. No, the sight-unseen market has not turned, just slowed a bit. Dealers feel that the last couple of larger rare coin shows concluded with less excitement and not as much "buzz" as experienced earlier in the year. The exceptionally strong market seen earlier in the year may be the very cause of this plateau. In a very strong market buyers are more willing to buy and they do so by being much more **aggressive** with their Bids. They don't mind stretching to pay for better dates and denominations because those coins and opportunities are tougher to find. Also, they did not mind placing their new purchases in inventory. Several dealers have told us that their retail sales have been tremendous, even through May and June. Consequently, prices increased at a rapid rate to a point where the new levels have sent up **red** flags to potential buyers. Are these coins worth these high levels? The plateau hits. Once those buyers see that coins are continuing to trade at these new higher levels, they believe them to be correct and in concert with supply and demand. Now the once reluctant buyers are more willing to step-up to the plate and pay the higher prices. At this point the market leaves its plateau and resumes its bullish ways. That's why dealers are looking forward to the upcoming July 22-24 New York Invitational Coin Show and important auctions held in conjunction with that show. There are some liquidity concerns as higher coin prices combine with past auction bills coming due, take their toll. Still most dealers believe that money always seems to be available for the right coin.

The sight-unseen market is strong despite the recent plateau period. Dealers still need material and the sight-unseen market is one of the avenues that they regularly pursue. This week, several segments of the market are seen with plus signs giving further proof that the bull market remains intact. Silver Commemoratives continue to gain favor as several issues continue to move higher in most grades. It is also encouraging to see that the strength isn't isolated in one particular segment within the Commems but rather it is diverse in issue and grade. The Hawaiian Sesquicentennial continues to attract higher Bidders even after posting increased Bids for the last two weeks. Still, we know that July has been a particularly good month for Silver Commems with plus signs appearing in each of its first three weeks. Gold Commems remain pretty much stable at current levels. Morgan Dollars have certainly reflected the plateau that dealers have alluded to earlier in this article. Morgans have been on a tear for much of this year and they just were ready for a cooling off period. Despite the slower pace for Dollars overall, "CCs" and better dates are still doing well. Increased Bids are in place for the semi-key, 1896-S in grades up to MS64. Generic Morgans have nearly stabilized in all grades except for the slight increase in MS67. DMPL issues continue to receive many supporting Bids as well with supplies not able to keep up with the demand. Type is hot! Dealers are impressed by the number of customers looking to buy Type. These are also nice coins to have in inventory as they represent a sneak peak into the many designs as well as obsolete denominations of our nation's early coinage history. The Mint State and Proof Type Bid columns are displaying many plus signs in this report. Uncirculated Capped Bust coinage is especially sought-after. Check-out the Dimes, Quarters and Half Dollars. Proof Type is led by Shield Nickels and Liberty Seated Half Dimes and Dimes. Mint State Gold Type is sound, in some respect reflecting Gold Spot's ability to stay above $400 per ounce. Also, the better date 1919-S Buffalo Nickel in MS63 and MS64 is sought-after at higher levels certified by either NGC or PCGS. Standing Liberty Quarters also display a few plus signs as well. Late date Walking Liberty Half Dollars are softer as focus shifts away from the short set. Proof Singles are also a bit weaker.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels. *www.cdnpublications.com*

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder In these cases a more accurate reflection of a coin s true value may be found in the CDN albeit on a sight basis

"The Absolute Fairest Prices Possible!"

"I wanted to thank you once again for all of your hard work in getting me the absolute fairest prices possible for my coins. Your integrity renewed my hopes for the numismatist field. I would not hesitate to refer anyone to you: in fact, I would most certainly encourage them! I hope you and your family have a wonderful weekend. With gratitude and respect."

This unsolicited testimonial is just one example of why those "in the know" go to **Spectrum Numismatics** to buy and sell their coins! We buy millions and millions (and millions!) of dollars worth of coins each year from collectors and dealers. Obviously, they're going where they can get the best deal for their coins, and that's why they choose **Spectrum Numismatics**. So should you!

Our customers are bringing us coins in record numbers because they know they're dealing with world-class rare coin experts with unlimited financial resources. Because they know they'll be treated fairly and courteously. Because they know we have other customers waiting for their coins in all ranges of the price spectrum. Because they know they'll always receive same-day payment. Collectors, investors, dealers, and financial institutions alike know the **Spectrum** secret, and now so do you. If you're interested in selling some or all of your rare coin holdings, why would you want to go anywhere else?

The principal buyers at **Spectrum** have over 200 years of combined numismatic experience. Our buyers are seasoned veterans in all areas of numismatics, and they know what your coins are worth. Is your collection a specialized selection of 18th century rarities? A large holding of modern proof coins? An estate that was left to you by a loved one? An accumulation that has been in the family for years? A dealer inventory? Rare coin properties come in hundreds of different forms, and **Spectrum** is interested in purchasing them all!

Dealing with **Spectrum** is always fast, confidential and convenient as you need it to be. We can travel to see you, meet you at our offices, or make an appointment with you for the next coin show in your area. We can also do the entire transaction by mail, as we do hundreds of times each year.

Selling your coins to **Spectrum Numismatics** is as easy as one, two, three. In fact, it's even easier than that. Just give us a call, drop us a line or send us an e-mail at **DaleSpec@aol.com** or **JBrushSpectrum@aol.com** We'll take care of the rest. Do it today!

Large Denomination Proof Type Higher MS67 Morgans Bid $860 Sight-Unseen

July is winding down after being a very busy and productive month for many dealers. As this article goes to press, several auctions are still in the process of closing. These sales are taking place in New York in association with the New York Invitational Coin Show. We will report some interesting highlights from these sales in the following week. Dealers have had to arrive early in New York as they needed to examine thousands of auction lots. It is very important that they do so because today's knowledgeable customers are more discriminating than ever before. We know that a select few of those collector/investors are date collectors. They will be happy to know that many date runs of several Gold denominations hit the auction block this week. Dealers know that an opportunity such as this doesn't come along every day and so they need to be more aggressive when Bidding. Still, inventory depletion remains very much on their minds as does filling their customer want lists. These inventory concerns are not at the critical point yet but dealers are still trying to improve this situation. They also know that August will be a busy month. The American Numismatic Association's World Fair of Money will be held in Pittsburgh, August 18-22. Consequently, dealers won't have too much time to rest following a hectic July. Besides the many companies that have been conducting sales this week, a final July auction is scheduled for the end of the month. Scotsman will host The Gateway City Sale in Saint Louis, in association with the Missouri Numismatic Society's 44th Annual Coin Festival. We have listed a few of the July 30-31 certified highlights.

Scotsman Auction Co.

Date	Denomination	Grade
1796	Draped Bust Dime	NGC AU58
1916	Standing Liberty Quarter	NGC MS66FH
1797	Draped Bust Half Dollar	NGC VF30
1795	$5 Capped Bust, Small Eagle	NGC AU50
1857-S	$20 Liberty	PCGS MS65

Overall, the rare coin market continues to enjoy prosperity with a hungry public eager to buy. The sight-unseen market is simply reflecting this continued strength with Bidders supporting current levels throughout. Some dealers are even more aggressive as they increase Bid for select issues. Several dealers have already had success in July with their sight-unseen Bidding. Some of the transactions taking place in July include: an NGC MS65 1903 Louisiana Purchase McKinley $1 Gold Commemorative at $2,100; a PCGS MS66 1922 Grant Memorial with Star $1 Gold Commem at $3,100; an ICG MS66 1879-O Morgan Dollar at $5,200; and, an NGC MS65 $2.50 Liberty Type for $1,290. Meanwhile, Type stays hot with increases occurring with more regularity. Mint State Type finds Shield Nickels advancing in MS64 but the real story is found among the larger denomination Proof Type coins. Dealers still believe that, even at the new higher levels, select NGC examples represent an excellent value. Large denomination Proof Type advancing includes: Liberty Seated Quarters, Halves and Dollars. The Liberty Seated series offers a popular design and collector/investors enjoy obtaining Motto, No Motto and Arrows examples in Proof. Barber Proofs can also create excitement and this week Quarters and Halves are higher. Also notice that in both cases the lower grade Proofs are increasing up to Proof 64. $3 Gold and the $5 Indians are getting some attention, among Gold Type, and a few plus signs as well. Morgan Dollars continue to maintain dealer support and interest. Generic Morgans are up a bit in MS67 to $860 Bid for either NGC or PCGS. Peace Dollars are solid with an abundant amount of support. Rare date Dollars increasing include: 1878-CC, 1884-S, 1895-O, 1896-S, 1902-S and the 1934-S. This list sure resembles a customer want list doesn't it? Interestingly, a few late date Non Full Band Mercury Dimes are slightly higher in MS64 thru MS66. The balance of the series continues to receive supporting Bids but dealers are not yet willing to advance their Bids. When you think of the most popular series, Walking Liberty Half Dollars is one that often comes to mind. Dealers are looking for 1927-S Walkers in MS63 or MS64 and they will take either NGC or PCGS examples. The key to the short set, 1938-D is higher as well in MS66. This area of the market remains mixed. Several increases are occurring for late date MS64 issues but minus signs are appearing for some dates grading MS65, MS66 and MS67. These are a few of the same dates that have sustained nice percentage increases over the past few years.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels. *www.cdnpublications.com*

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer–to–dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin shows and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy**: During the thirty days prior to publication, we track the lowest sales–related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "**w**" – Lowest asking price during the week prior to publication (week old); "**m**" – Lowest asking price during the previous three weeks (month old); "**t**" – Trade during the most recent month; "**lm**" – Lowest asking price appearing last month; "**lt**" Trade appearing last month; "**ot**" Trade older than 2 months; " " a blank, for all Market prices older than two months; "**a**" for auction transactions; "**oa**" – auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight–unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Dollars Star In Sight-Unseen Market
Healthy Auction Prices Realized In New York

The New York Invitational Coin Show clearly demonstrated to dealers that the rare coin market is still quite vibrant with buyers willing to spend big sums for quality rare coins. Several auctions that were held in conjunction with, and surrounding the show were extremely powerful. The selection of many scarce and rare coins certainly didn't go unnoticed. Dealers tell us that they have many customers who have been waiting for select rarities, and when the opportunity comes along they are quick to seize it.

American Numismatic Rarities offered just **107 lots** from the Oliver Jung collection on July 23 and the sale realized **$5.6 million**. Many of these rare and early pieces have been on customer want lists and so the strong results did not come as a shock to many dealers. Heritage featured their New York Signature sale July 20-21 and realized more than $7.3 million. Part I of the Richmond collection broke all of its pre-sale estimates. Dated Gold collector/investors must have been extremely pleased to see a number of these rarities finally hit the auction block. The July 22-24 sale conducted by David Lawrence Rare Coin Auctions brought in excess of $11 million. We have only listed some of the certified highlights from these auctions.

While prices realized from the auctions held in New York last week were quite impressive, less can be said for the Internet auctions. A noticeable number of lots sold for well below their current sight-unseen Bid. Just a few of the more severe examples are listed from the last seven days.

Morgan Dollars have been a very hot area of the market and this trend is continuing this week. One dealer that we spoke with said, "Dollars are extremely good." He sees Dollar demand coming from other dealers, investors and collectors. Once again, the Dollar market isn't limited to only rare date demand. Generic Morgans continue to receive strong Bids from several dealers and they are looking to buy these in quantity. MS65 Morgans are now Bid $118 sight-unseen for either NGC or PCGS examples. However, rare dates are still the rage with dealers maintaining their strong Bids with even more plus signs this week. Carson City issues are still attracting a lot of attention from dealers because they have outstanding want list needs for these dates from their customers. Better date San Francisco and New Orleans Mint Morgans are also on the plus side. Peace Dollars are steady with just a little softening appearing for MS63 generics. Silver Commemoratives are inching higher in several grades. Dealers see this area of the market improving somewhat, although slowly. Type is a very solid area of the rare coin market with many of today's sophisticated collector/investors looking to buy. Evidence of this was seen in the results from the ANR sale of the Jung collection. Most areas of the market remain solid at current levels although we do see some weakness among late date Walking Liberty Half Dollars. This is especially true for MS65 and MS66 examples. Gold has been "up and down," according one dealer. Dramatic fluctuations in Spot have left buyers wondering which direction this market is really heading. However, Proof Gold is immune to Spot's fluctuations as it continues to receive solid Bidding support at these levels. Most dealers are looking ahead towards the American Numismatic Association's Money Show that is just around the corner. Expectations are high as the market continues to make believers out of those individuals that are considering buying rare coins for the first time or those collector/investors adding to their positions.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels. *www.cdnpublications.com*

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

Early Walkers Move Higher
Several Auctions Scheduled In Pittsburgh

Now that the New York City show and auctions are behind us many dealers are focusing their attention on Pittsburgh. This year's American Numismatic Association's National Money Show will be hosted in that city. This area of the country is rich with collectors and most dealers have high expectations for this year's show. Pittsburgh auctions will also play an important role in the festivities as several will be taking place in rapid succession. Prior to the sales dealers will be busy viewing select rare coins as thousands of lots will hit the auction block in only a few days. Bowers and Merena (B&M) will conduct a Rarities Sale featuring several Registry sets. This auction will be held August 14. Next on August 15, American Numismatic Rarities (ANR) will host the Classics Sale featuring the Allison Park collection. On August 16, Superior Galleries (SUP) will conduct their Elite Coin Auction featuring, among others, an early Gold and Morgan Dollar collection. We have listed a few of the many certified highlights from each of these sales. Dealers know that they will need strong credit and/or available funds to be successful as the auction battles are expected to be fierce. Many of the date collections hitting the auction block will allow dealers to Bid on some of the many want list rarities that they need to buy for their customers. Of course, several dealers have want lists that include the same tough dates and so the intense competition will not make their job any easier.

The ANA, now just a couple of weeks away will also present opportunities. Dealers expect to see interesting rarities showing up at this numismatic event of the year. The rare coin market is maintaining its current strength as the big show nears. Bids are not only plentiful but they are very aggressive as well. It is easy to tender strong Bids when you know that you have an eager customer waiting to put his or her name on a particular coin. There has been no help from metals either. The precious metals have been pretty quiet. However most dealers still expect a continuation of the bull market rally.

Just look at the continued strength in the sight-unseen market to see why the rare coin market remains so strong. Exceptional Bids are occurring with the early Walking Liberty Half Dollars this week. Increases are taking hold for many big ticket items in MS65 thru MS67. Many five-figure and even six-figure Bids are taking place, **sight-unseen**. It is all the tough key and semi-key dates that are needed and strong Bids are hoping to capture some of them. Increases are also seen in our Silver Commemorative Bid columns as well. This area of the market has been improving for several weeks now. Orders still remain unfulfilled and dealers are trying to fill them. Morgan Dollars are still solid with increases targeting the Carson City key, 1889-CC, in MS61 thru MS64. Sight-Unseen Bids are up again for generic Dollars with MS61, MS62 and MS67 participating. Gold Type is still weak, reflecting the flat Spot prices of late. Yet, Mint State and Proof Type are solid with sight-unseen Bids in place waiting to be hit. Buffalo Nickels and Mercury Dimes are also highly sought-after with supporting Bids found all over the place.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases a more accurate reflection of a coin's true value may be found in the CDN, albeit on a sight basis.

ICG is Proud to Present

The "King of VAMs"

1878 7/8TF
DISCOVERY COIN
1878

The VAM 44 Discovery Coin!

In 1963, a young Berkeley engineering student encountered a revolutionary booklet, entitled *Morgan Dollar Varieties* by F.X. Klaes. In this small volume, a previously unknown 7/8TF "Doubled Leaves" variety was among the coins featured. And the rest is history!

The student was none other than Leroy Van Allen.
And the coin? It was the first VAM 44, the "King of VAMs."

And naturally, IT'S IN AN ICG HOLDER!

It's good to be back.

From dealer to grader, now back to dealer, exciting times are here.

John Maben
President & Chief Numismatist
John Maben Rare Coins, Inc.

I am proud to announce the launch of my new company, John Maben Rare Coins (JMRC).

In case we have not met, I have been in the coin business since 1978, with the last 8 years grading at NGC and 7 of those as a Grading Finalizer. Over the years, I have purchased tens of millions of dollars worth of coins, and graded and authenticated millions of coins to the highest industry standards.

And now, with the opening of JMRC, I have set my sights on being a coin company that reminds people of the good old days, when things were far less complicated. By that, I mean we are here to deliver a complete range of beginning-to-end services that assist other dealers, advanced collectors, and investors in maximizing their returns when buying and selling coins. No hyper-specialization, no investor-only or dealer-only emphasis.

JMRC is a well-rounded, full service company you can trust, and enjoy working with on a regular basis. Simply put, I would like to put my years of experience to work for you in those situations where you need definitive answers and a "total numismatic solution."

If you are selling and looking for the "right" company to assist you in an orderly disposition that will maximize your profit potential, JMRC is here to provide the one-stop services you need. If you are building a collection or portfolio, and would like professional guidance from a knowledgeable and trusted source, JMRC is here to serve you.

Consider that, as President of JMRC, I am uniquely qualified to offer you all of these benefits:

- Advice on a coin you are thinking about buying for a significant upgrade. Who better to ask?
- Direction on a coin where professional conservation care might make all the difference. As a key contributor both conceptually and materially to the formation of Numismatic Conservation Services (NCS), the only firm of its kind, I have extensive experience in evaluating coins as candidates for conservation.
- Extensive contacts and decades of experience that will assist in obtaining top dollar when selling.
- Relationships with major auction companies that allow me to negotiate for you when consigning, and to make representation on your behalf when buying.
- Assistance in determining how much to bid on individual coins and collections.
- The ability to put together and finance any size numismatic deal.
- A recognized "eye" for precision grading that is nearly unrivaled, even among professional graders.
- The convenience of our close proximity location to NGC and NCS, in the Sarasota, Florida area.

Whatever your needs, JMRC is here to help you buy and sell more coins, more profitably.

At JMRC, we are strong buyers of U.S. coins, of all dates, denominations, and rarities. I am exceedingly familiar with all coins of the U.S. Mint. I am willing to partner deals with you using my funds to make the purchase if you so desire. I will be attending all major shows and auctions, as well as many local shows. Along with Margie Sheaffer and Tom Thomas, both veterans of the coin business, we look forward to putting our combined 75 years of experience to work for you in the near future. Just let me know how we can be of help to you! We want to be "Your Total Numismatic Solution."™

Off To Pennsylvania For Pre-ANA, ANA Silver Commems See Higher Sight-Unseen Bids

The pre-ANA (August 13-16) is in progress with the American Numismatic Association's National Money Show (August 18-22) waiting in the wings. Many dealers and sophisticated collector/investors have gathered in Pittsburgh to participate in the big show. Many of those who are already in Pennsylvania are in good spirits because this has been a **banner year** for rare coins. The overall coin market is doing just fine with an expanding collector base coupled with solid demand fueling all the optimism. Dealers tell us that they expect the activity level at the show to be very strong. Many dealers will be so busy from beginning to end that they will find it tough to even eat, let alone relax. Because of its size and attendance, the ANA is usually a good place where dealers can "blow-out" some material that may have become stagnant. Strong demand and a large number of buyers expected at this year's ANA should make the task of selling an easy one. Those dealers that have nice quality rare coins to sell should have little problem finding enough buyers. For one thing, several dealers will be in Pittsburgh for the sole purpose of buying coins. Customer want lists have been an overhang on the market throughout the year and this forum should provide an excellent chance for dealers to capture some of these coins. Still competition and price levels are expected to be very strong. In one example, a dealer just put a message out on one of the electronic dealer trading networks looking to buy, for a customer, a 1796 No Stars $2.50 Capped Bust. This is a one-year and also a first year Type coin and as such it receives exceptional demand. Also, it is a very rare and expensive coin, not fitting the budget of most collectors. No, this is a coin for the serious collector/investor who has enough funds and patience. Another dealer who specializes in early Gold said that he couldn't accommodate that dealer's demand. Why? For one thing, he didn't have an example available but more importantly, he already has five or six customers of his own waiting to buy one. The continued lackluster stock market and relatively low interest rates have benefited the rare coin market as an alternative place to put some money.

The sight-unseen market is receiving another round of increased Bids as dealers take one last shot before the pre-ANA and ANA get off the ground. Strong demand is the driving force as Silver Commemoratives, Morgan Dollars, Proof Type and Proof Franklin Half Dollars are this week's beneficiary of those Bids. The lower and middle Mint State grades seem to be most heavily targeted by Bidders of Silver Commems, but we still see some increased Bids at the upper levels as well. Many of these coins still appear to be "too cheap" at current levels and so dealers are continuing to increase Bid. Value is an important consideration when it comes to Bidding and astute dealers believe that this area of the market, because of its popularity and because the number of collectors is growing, is a good place for their money. As you can see, the need is broad in scope from the Isabella Quarter to the York County Maine Half Dollar. Bidders are looking for NGC and PCGS examples and they are also willing to buy these coins in quantity. Morgan Dollar hunters are continuing their assault on this popular, sought-after series. Dealers tell us that, "Everyone is looking for Dollars these days." The bottom line is that collectors are adding them to, and upgrading them in their collections. Dollar fever has been with the coin market for most of the year and there is no cure in sight. Carson City, better dates, key dates and common dates all have willing takers. Proof Type is hot! Liberty Seated material from Half Dimes thru Dollars are realizing plus signs this week. Barber coins from Dimes thru Halves are also participating. We even see Type II 3-Cent Silver Proofs and Trade Dollars heading higher. Value is still an important consideration for Proof Type buyers. So dealers are looking for PR62 thru PR64 specimens as they believe these grades to be the most undervalued. Select Mint State Gold is strong as is the overall market. Walking Liberty Halves are mostly higher with a few being discounted but the majority of Bidders are supporting current levels and are also willing to increase some of them. Proof Franklin Halves are generally higher too with Proof 64 and better being the grades of choice.

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels. *www.cdnpublications.com*

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

PROOFLIKE MORGAN DOLLARS

P.L. Dollars may be [illegible] reflective [illegible] than the [illegible] Prooflikes. Bids for P.L.'s are usually much lower than for DMPL's, but [illegible] non-P.L. strikes.

PROFESSIONAL NUMISMATISTS GUILD • INC

NEED TO MAIL?

Save Money On Postage! We will Pre-Sort your Mailing Labels to get You the Best Rate

Need to contact America's leading numismatic dealers? Make your advertising and postage dollars count with America's best dealer listing. The company name and numismatist sections of the

2003 Numismatic Dealer Directory™

are available for rental. Since the Directory is fully copyrighted, this is your only source for this proven list of approximately 5,000 current names and addresses. And **current** is a promise taken seriously - the data base is updated **daily**. All for only $325 - well below the mailing industry standard of $75/thousand.

To make this offer even more attractive, labels are available in both First Class order or Presorted for Basic Bulk Rate mailings (you can save more than $425 over First Class postage rates!). Need just one state or region? Need a trial sample? Contact us for details!

YES, I want to order mailing labels averaging 5,000+ names from the 2003 Numismatic Dealer Directory. I understand that my $325 fee entitles me to only one usage of these names. ______________________ signature
My check for $325 payable to CDN, is enclosed.

Strong Activity Characterizes ANA Opening Day
Type, Proof Gold, Walkers & Dollars Needed

The American Numismatic Association's National Money Show got off to a great start this year. Dealers that we spoke with were extremely encouraged by the brisk activity that took place during PNG Day on August 17. It was obvious from the outset that many dealers traveled to Pittsburgh hoping to buy rare coins. Dealers that had nice quality rare coins were in the driver's seat as business was taking place rather easily. The official opening day of the ANA on August 18 also did very well. We only have information for the first day as this article goes to press. One dealer said "trading (on the bourse) is very active." He came to the show primarily to buy coins and he was finding a lot of great material. The price levels are strong with many coins trading at current Bid. However, dealers also told us that there were quite a few coins also trading for more money. Generally, dealers are willing to pay over Bid to get the deal done, especially when they have a waiting buyer or the coins are PQ for the grade. In one early reported transaction a dealer sold $400,000 in rare date Gold to another. Both parties were extremely pleased with the deal.

Several dealers are trying to anticipate the future of the rare coin market. Many are now starting to take positions in several areas of the market that they normally would not. The demand is just so good that they feel like they are missing out on sales by not having a diverse inventory. Proof Type was specifically mentioned with interest targeting Proof 65 and better graded coins. Walking Liberty Half Dollars is another area where dealers are offering to buy, in a major way. The whole series is in demand with the short set dates experiencing strong demand in MS65 thru MS67. Of course the early dates are trading almost instantly when they become available. Washington Quarters have seen some activity on the bourse as well. We heard that gem quality 1932-D and 1932-S examples changed hands. Morgan Dollars were sought-after with buyers looking for "CCs," key dates and MS65 generic examples. However, the MS63 and MS64 generic Morgans were a bit on the soft side. Dealers told us that there is new interest in the Mercury Dime series. Buyers are strictly looking for high quality MS65FB and better examples. Proof Gold was "virtually nonexistent" on the bourse. When a few examples were finally spotted they came with a high price tag.

The sight-unseen market is finding much of the same kind of action from dealers although the Bidding is, naturally, more conservative. The Silver Commemoratives are finding higher **sight-unseen** Bids for many issues. Plus signs continue to be found as coins are still needed to fill orders. Gold Commems are mainly firm although we do see some discounting taking place among the two Louisiana Purchase issues in MS66 as well as the Grant with Star in the same grade. Morgan Dollar activity is mirroring what dealers have told us they experienced on the bourse. MS63 generic Dollars are slightly lower while the Carson City and key dates continue to generate quite a bit of interest. Peace Dollars are becoming more active with plus signs occurring for generics as well as for the key dates. The Type markets are solid with a lot of Bidding support to be found. Mint State Type hunters are looking to buy early coinage. Flowing Hair Half Dimes are needed and dealers have increased their Bids hoping to buy some. These increases are occurring in MS61 thru MS64 and dealers would be very happy to get them in any of these grades. Capped Bust Dimes and Quarters are also moving ahead this week. This early material is found on many want lists but besides that, dealers don't mind adding some of this material to their own inventory. Why? Because they know that these coins virtually sell themselves. As dealers noticed on the ANA bourse, Mercury Dimes are becoming more and more sought-after. Despite some minor discounting, dealers are actively supporting current levels for many issues and are even willing to push sight-unseen Bids slightly higher. There may be some testing of the waters before the larger Bids emerge. We will just have to wait and see.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels. *www.cdnpublications.com*

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

It's good to be back.

From dealer to grader, now back to dealer, exciting times are here.

John Maben
President & Chief Numismatist
John Maben Rare Coins, Inc.

I am proud to announce the launch of my new company, John Maben Rare Coins (JMRC).

In case we have not met, I have been in the coin business since 1978, with the last 8 years grading at NGC and 7 of those as a Grading Finalizer. Over the years, I have purchased tens of millions of dollars worth of coins, and graded and authenticated millions of coins to the highest industry standards.

And now, with the opening of JMRC, I have set my sights on being a coin company that reminds people of the good old days, when things were far less complicated. By that, I mean we are here to deliver a complete range of beginning-to-end services that assist other dealers, advanced collectors, and investors in maximizing their returns when buying and selling coins. No hyper-specialization, no investor-only or dealer-only emphasis.

JMRC is a well-rounded, full service company you can trust, and enjoy working with on a regular basis. Simply put, I would like to put my years of experience to work for you in those situations where you need definitive answers and a "total numismatic solution."

If you are selling and looking for the "right" company to assist you in an orderly disposition that will maximize your profit potential, JMRC is here to provide the one-stop services you need. If you are building a collection or portfolio, and would like professional guidance from a knowledgeable and trusted source, JMRC is here to serve you.

Consider that, as President of JMRC, I am uniquely qualified to offer you all of these benefits:

- Advice on a coin you are thinking about buying for a significant upgrade. Who better to ask?
- Direction on a coin where professional conservation care might make all the difference. As a key contributor both conceptually and materially to the formation of Numismatic Conservation Services (NCS), the only firm of its kind, I have extensive experience in evaluating coins as candidates for conservation.
- Extensive contacts and decades of experience that will assist in obtaining top dollar when selling.
- Relationships with major auction companies that allow me to negotiate for you when consigning, and to make representation on your behalf when buying.
- Assistance in determining how much to bid on individual coins and collections.
- The ability to put together and finance any size numismatic deal.
- A recognized "eye" for precision grading that is nearly unrivaled, even among professional graders.
- The convenience of our close proximity location to NGC and NCS, in the Sarasota, Florida area.

Whatever your needs, JMRC is here to help you buy and sell more coins, more profitably.

At JMRC, we are strong buyers of U.S. coins, of all dates, denominations, and rarities. I am exceedingly familiar with all coins of the U.S. Mint. I am willing to partner deals with you using my funds to make the purchase if you so desire. I will be attending all major shows and auctions, as well as many local shows. Along with Margie Sheaffer and Tom Thomas, both veterans of the coin business, we look forward to putting our combined 75 years of experience to work for you in the near future. Just let me know how we can be of help to you! We want to be "Your Total Numismatic Solution."™

Excellent ANA Now History
Mixed Sight-Unseen Market As Expo Nears

Most dealers that we spoke with at the American Numismatic Association's National Money Show in Pittsburgh were extremely satisfied with their results. There was a lot of activity taking place on the bourse and at the public auctions associated with the show. Wholesale, sight-seen levels on the bourse were strong with dealers willing to pay current Bid and above for the rare coins they needed. We talked to one east coast dealer who sold an 1893 Chain AMERICA Cent in PCGS AU50 for $50,000 to another dealer. Better date $3 Gold pieces have been generating increasing interest with Bids benefiting. Two scarce 1881 $3 Gold pieces changed hands on the bourse: an NGC AU58 brought $5,750 and an NGC MS61 realized $7,250. Rare date Gold was heavily sought-after by many dealers in Pittsburgh. Early Gold was also realizing strong prices from those buyers desperate for material. Those dealers that had better date Gold were in the driver's seat and were able to wait out other dealers looking for bargain prices. Proof Gold was hot although there wasn't that much available (on the bourse) to satisfy those dealers needing to buy some for customers.

We have just completed a period in the rare coin market where thousands of lots by several auction companies have been sold. While many coins have been absorbed by the strong demand, there has also been a large number of coins that have sold for levels well below active dealer-to-dealer **sight-unseen** Bid. Strong markets have a tendency to bring out the average and even below average material for quick sale. This one is no exception. Those dealers needing to blow-out such "stuff" can do so conveniently and easily at public auction. If the reserve is low or non-existent then the coin sells at whatever level a buyer feels comfortable owning such an item. Consequently, we are seeing some discounting in the sight-unseen market, mainly from pockets of poor auction prices realized in the last few auctions. Silver Commems, Gold Commems, Mint State, Proof and Gold Type, Buffalo Nickels, Mercury Dimes, late date Walking Liberty Halves and Proof Singles are all participating. These declines may be short lived as a few buyers are strategically waiting for prices to back-off a little before stepping in. Or, it may be a signal that too many coins have hit the market in a short period of time causing temporary cash or credit problems for potential buyers. This may also be just the time for some healthy profit taking, as expected during the course of a normal bull market. Attractive and rare coins are still bringing strong money in many areas. However it's the average and below quality common coins that are seen time and again, that are not selling at current Bid levels. Some of the dealers at the ANA voiced concerns about their cash flow as invoices come due. Some of them believe that this, and for other reasons, may play a role in the outcome of the upcoming September 9-11 Long Beach Expo. Two Pre-Long Beach auctions in California are also scheduled. Superior will host the September 5-7 sale in Beverly Hills and Ira & Larry Goldberg will conduct a September 6-7 auction in Los Angeles. We have previewed a few of the many certified highlights from these sales.

Along with the discounting are signs of strength that define the general bull market. Morgan Dollars remain solid with levels holding as buyers still outnumber sellers. Be sure you notice the very sharp increase for the 1880 Morgan Dollar in MS67 for both NGC and PCGS. It now sports a $35,000 sight-unseen Bid for each. Since neither service has graded one MS67 this Bid may entice one to be made. Silver Commems have benefited from several higher sight-unseen Bids. Type is still commanding strong supporting Bids as are the popular series 20th century coins. These, among others are the signs of a continued bull market and it will be interesting to see the direction the market takes from now till the end of the year.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices! The CCDn may not respond to the removal of a high Bid but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks [illegible] and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher [illegible] that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied [illegible] or [illegible] the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade [illegible] lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy**: During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "**w**" – Lowest asking price during the week prior to publication (*w*eek old); "**m**" – Lowest asking price during the previous three weeks (*m*onth old); "**t**" – *T*rade during the most recent month; "**lm**" – Lowest asking price appearing *l*ast *m*onth; "**lt**" *T*rade appearing *l*ast month; "**ot**" *T*rade *o*lder than 2 months; " " a blank, for all Market prices older than two months, "a" for auction transactions; "oa" – auction older than 1 month

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit on a sight basis.

Discover NGC's Unparalleled Approach to Service.

NGC offers the numismatic community a truly rare commitment. Our best-in-class services, industry-leading experts and a customer-focused approach give dealers and collectors alike a comprehensive grading services partner.

The Finest Services

NGC's comprehensive offering means that you have access to the numismatic services you need to make the most of your collection. From our expert grading and industry-leading holder to our comprehensive registry, our services are designed to help fulfill your passion for the hobby. Plus, we offer unparalleled conservation services through our exclusive partnership with Numismatic Conservation Services (NCS).

The Leading Experts

The diverse numismatic backgrounds and unchallenged experience of our graders combine with our uncompromising standards of integrity and objectivity to make NGC the most respected grading service in the industry. NGC graders are prohibited from buying or selling coins, therefore guaranteeing impartiality. This is one of the main reasons we are the only grading service ever endorsed by the ANA, America's only official coin collecting organization chartered by Congress.

The Right Approach

NGC is the only grading service that provides dealers and collectors with a seamless source for having coins conserved if necessary, graded and registered. We also offer the industry's strongest guarantee, giving our customers complete confidence in the grade and authenticity of their NGC graded coins.

Silver Commems Dominate Market "CC" Morgans Move Higher

The sight-unseen market for rare coins remains extremely active as we begin September. This is the time of year that is almost always expected to see business begin to pick-up after the conclusion of summer and vacations. However, this year is somewhat different because the summer market was also very active and moving higher. Dealers may not experience a sudden increase in business but rather continue to feel very optimistically towards the market and its immediate future. The precious metals are also helping to keep their attitudes positive by continuing to maintain sight of the $400 per ounce benchmark level. Relatively low interest rates and a lackluster stock market have also contributed towards this very healthy rare coin market. Most important to this market strength is the growing collector base and with five more years of the State Quarter program remaining, the growth should continue.

Dealers, both large and small are in route to Southern California for the September 9-11 Long Beach Expo and accompanying auctions. There will be plenty of action for both buyers and sellers. Buyers will be looking for select rare coins for their customers. These are knowledgeable collector/investors just patiently waiting to buy that special coin. During these times of a quickly rising market, the price tag for the newly found coin is often higher than first estimated. Customers often tell their dealers that the satisfaction of finally having an example in one's possession more than makes up for the increase in price. Besides many of them believe that, in this bull market, the price is probably headed higher anyway. Want lists are out there and growing with many rare coins still needed to be found. The interest generated by collector/investors today is only heightened because they know that the economic forces already in place continue to make the market more conducive to owning, and profiting from rare coins. Many of these collector/investors have already seen their purchases trading at higher levels. Dealers try to buy them back, even offering their customers a good profit but still many are reluctant to sell.

Dealers will often de-activate their sight-unseen Bids on the dealer-to-dealer trading networks before, during and after a major show and auctions. They are cash position minded, knowing that auction bills are soon coming due and yet still not wanting to be left out of any major deals. This is not the case today, the sight-unseen market is still experiencing increased Bids as well as a large number of supporting Bids throughout many areas. Silver Commemoratives are extremely active. Plus signs are dominating grade columns MS61 thru MS63 for both NGC and PCGS certified coins with interest also seen for some ANACS and ICG. However, there is also a solid number of increases targeting some higher grades as well. Value is the key as dealers find many willing buyers able to pay $100 to $500 per coin. Unfortunately, it's becoming tougher and tougher to buy these coins in the quantities that they need at the present. Most of these lower Mint State grade Commems have very low populations. PCGS has only graded 1,620 in MS61 and only 12,488 in MS62, compared to 100,452 graded in MS64. Remember this is the total graded for all 144 pieces in the series. Not all Commems fit that modest budget as the Grant Memorial with Star Half Dollar in MS66 is now at $10,000 Bid for either NGC or PCGS examples. Morgan Dollars are realizing strong demand again this week as dealers still need dates. Carson City and other better date Morgans are on the list again as dealers inch Bids higher in an effort to buy. DMPL Dollars remain in serious demand with several players chasing them, some for their collector clients, others for foreign investors. We do see some weakness in the short-set dates of the Walking Liberty Half Dollar series. This segment has been strong for quite some time and was just overdue for some profit taking. Also, be sure to notice the increases for select Franklin Half Dollar Proofs. Buyers are looking for NGC, PCGS, ICG and ANACS Halves from 1950 thru 1958 in various grades. Type, like the rest of the sight-unseen market remains solid.
